

2830 De La Cruz Blvd. Outdoor Amenities

Santa Clara, CA

PROJECT OVERVIEW

Iron Construction demolished an existing outdoor patio of a class A office building that was outdated and unusable. Upgrades included new low water-consumption landscaping, drip system, modern concrete walkways, water-saving artificial lawns, high-end South American “Ipe” wood fences and gates, a perforated metal fence with LED lighting, new seating, ping pong table, cornhole and outdoor bar.
