

The Salon Professional Academy – Redken Salon

San Jose, CA

PROJECT OVERVIEW

Demolition and Buildout of Cutting Edge Salon Facility. This is the first Redken Academy built in California. Due to its location in San Jose’s Westgate Mall, it was imperative that work be completed in under three (3) months. When complications arose with the original design, Iron’s experienced project team assisted in the redesign, making the space stunning, functional and appropriate for the client’s needs.
